Fun element (Mostly passenger friendly roads)

The reconnaissance for this run has identified great Cafes and pubs for meals, amazing accommodation and timeless country towns to explore and shop. The roads are all bitumen. (Caution signs re road damage need to be strictly observed, proceed with caution). The route is a combination of freeway, back country secondary roads, mountain ascents and descents, but mostly very acceptable comfortable country roads. We have assured there are lots of breaks from driving.
